

Technical rider

Night light

by Andy Manley and Teater Refleksjon

Practical information

Age group: 3 - 6 years and grown-ups
Duration: App. 40 minutes
Max. audience: 50 children and adults altogether.
Must be observed, as the performance takes place inside a tent like structure

Technical information

Space requirements: 8 x 10 x 3 m. on a level floor. This includes the audience build up, which is an integrated part of the set.
The performance space must be staffed, ready and cleaned upon our arrival and must have heating / air con.

Black out: Black as in a cinema is absolutely necessary!!

Get in time: 3 ½ hours - two helpers and one technician needed for build-up
After international freight: one full day

Get out time: 2 ½ hours - two helpers needed
3 hours when packing for international freight

Light and sound: The show travels with it's own light and sound system

Electricity/power: 380 V – 3 x 16 Amp CEE or 2 x 100 – 245 V / 20 – 10 Amp

NB!

Night Light to a large extent use sound and music to convey the story. The little girl in the show – we do not see her. Instead we rely on the sound of her foot step and of her giggling in order to be able to follow her around the set. This is crucial to understanding the performance. Therefore the show is very sensitive to noise coming from the surroundings, such as air condition, front of house announcements etc. Please bear that in mind when choosing the venue for Night Light.

Other requirements

Clean, tidy, air-conditioned wardrobe and / or green room facilities for the performers to prepare before performances and to rest between performances must be available upon arriving. Must have access to WC and to shower without having to meet the audience and include complementary water, coffee, tea, biscuit and fruit. WIFI access if at all possible.

Freight

The size of the Night light freight is:

3 x flight cases of 272x100x74 cm.

1 x flight case of 180 x 54 x 69 cm.

A total of 4 items, total weight app. 1.160 kg

The flight cases are NOT to be stacked. You need a van with a lift and a pallet lifter.

If the set travels by air cargo the Organiser must supply:

4 X 12 volt alkaline MN21 A23/K23A LRV08

2 X 9 volt NiMh 200 mAh **RECHARGABLE**

16 X 1.5 volt AA LR6 MN1500

20 X 1,5 alkaline AG 13 LR44 357 **Button cell**
